

**GTARC EMCOMM
Windshield Survey Assignment**

Date: _____ Activation #: _____

Event: _____ Name: _____

Tactical Call Sign: _____ Tactical ID: _____

“From” Location: _____

Team Member Names	Call Sign

Start Time _____ End Time _____

Situation Assessment

Loc. Name	Address	Time	Findings

Advise Net Control when you have completed and reported your survey for further instructions.

Findings: add brief comments as needed. For example, for a station not flooding the finding could be, “water 4’ below top of bank.” Or, for a flooding station, “6 to 8” of water in right lane.” Or, “mobile home burning in flooded river, gas fire, power line down.” You can be as creative as you like! (Be sure to include “Drill Traffic.”)
